

MAUNGAREI TEAM HOMEWORK

Week 7 & 8 Due

20th June 2009

SPELLING

See the Homework Expectations.
Practice your spelling words every night.

CODE 1

Mathematics

Do you know how to measure the length of certain objects. Do you know what **metre** and **centimetre** means? This skill could become quite handy especially if you're making go-carts!

Grab a tape measure, ruler, metre ruler or whatever you think you'll need to measure the length of 8 items found in your bedroom: For example :your bed, chair bookcase, rug etc. Draw a plan of your room and label these items with your findings. Happy measuring!

Code 2

www.mathletics.co.nz

Visit the Mathletics website every weeknight and practice your basic facts against worthy opponents around the world. If your Numeracy teacher has set you task/s you'll have to complete those first.

If you do not remember or have lost your USERNAME and PASSWORD ask your teacher.

CODE 1

ARTS DESIGNER VEHICLES

Car manufacturers are always looking for new ways to power cars. Electric cars do exist and a hybrid car uses electricity and petrol. What sort of transport could we see in the future? Draw several "future cars" on graph paper. Paint or crayon in and cut out. Paint or illustrate a border around a large piece of graph paper and glue on your cars. Draw other forms of future transport -buses, ships, planes space modules. Let your imagination go!

CODE 2

Reading

See the Homework Expectations.
Read every night and record it in your Reading Log.

CODE 1

TOPIC:

New Zealand in Motion

Machines and transport:

Have you ever wondered how certain machines move?

Design an A4 or A3 poster explaining what makes one of the following machine move.

Choose from one of these:

How do rockets blast into space?

How do cargo cranes move their loads?

What is different about monorail trains?

What makes a clock tick?

CODE 2

Letter "E" or "F"

You need to create a **two page presentation** in your homework book on a topic beginning with the letter "E" or "F". You choose!

This could be ANYTHING that you are interested in finding out about (for example, elephants, frankincense, football, energy!).

You need to **RESEARCH** your topic and then decide on the most important FACTS to share in your presentation. You will probably want to add some **PICTURES** or diagrams as well to make your presentation interesting for the people reading it.

USE the Hamburger Plan to help you plan your report. I want to see your plan too. You can draw your own or ask me for a template.
